Research shows that victims of fraud come from all education levels and socioeconomic backgrounds. There is no single profile of a victim of financial fraud, and there is no level of intelligence that can prevent a person from being victimized. Everyone is at risk.

During International Fraud Awareness Week (November 13-19, 2016), access the [Fraud Special Feature](#) for information and resources about fraud, fraud prevention, resources for victims, and the investigation of fraudulent activities.

Protect Your Pets

The Muskego Police Department received a complaint of two dogs being attacked by coyotes on Monday, November 14th at approx. 1:00am. The owner had let them out and put them on a pet runner then went back inside the house. The dogs received numerous fatal attack wounds, and the coyote attempted to drag one dog in to the woods but was unsuccessful due to the dog runner being attached.

Until next time, have a good week, stay alert and stay safe.
